Fine water, abundant timber and beautiful scenery are among the attractions of the Mineral Hill district.

The ladies of the Presbyterian congregation have provided a social entertainment for next Friday evening at the new church on the east side.

John Schaefer, Frank Cressips and H. Faulkner, were arrested recently at Leadville for stealing silver from the stamp mill of Taylor & Brenton.

P. S. Armitage, a young attorney from Louisiana, suicided a day or two since by taking laudanum at Denver. Poverty and despondency was the cause.

There is standing upon the depot platform a handsome, new, fruit and confectionary wagon directed to Bell & Co., Las Vegas, from the maker in Denver.

A lawyer of St. Louis, named John W. Panley, has been arrested and placed in an insane asylum. His lunacy is attributed to too much meditation upon religious subjects.

An almond-eyed Mongolian got off the train at Glorieta a few days since, to open a laundry, but was shown out of town by the first train. No Chinese emigration for Glorieta.

The rains have likely ceased for this season and if so we may expect splendid feed for the winter. The grass will cure in hay on the ground and stock will keep fat the year around.

Merchants of this city are stocking up with larger stocks of goods than ever before. They appreciate the advantages of this city as a wholesaling point, and are preparing to supply the trade.

Do you twig the new heading of the *Democrat*?—*Santa Fe Democrat*. We tumble, but might not the readers of the *Democrat* appreciate such an emendation for the editor as well as for the paper?

Mrs. Lincoln, widow of President Lincoln, is so far recovered as to be restored to her family and friends. She will shortly visit Washington and remain during the fall and winter in the family of her son, Robert T. Lincoln.

Prof. Robertson showed us yesterday some buttons of "pure gold, tried in the fire," which he had extracted from its native rock. We asked him where it came from, but he shut his left eye significantly and we were too modest to press the question.

W. A. Givens, agent of the Singer Sewing Machine Company, has a good stock of the best machines and of the finest finish ever brought to this market. He has a standard machine which has not yet been excelled, and which still retains its popularity.

Destructive fires are raging in Michigan. Three hundred persons are said to have perished in the flames, and thousands are rendered homeless. Senator Conger and W. L. Bancroft have signed a call for money, clothing and provisions for the destitute and suffering victims.

A number of burros, loaded with something like one-fourth of a cord of wood each, were driven in from the hills this morning. Small as these animals are, their utility seems to have a wonderful diversity, one of them being equal to a pair of horses and wagon, for all practical purposes.

A house-warming was given last night by Capt. Hearon on the completion of the Fairview Hotel at Mineral City. A number of people went out yesterday afternoon, to be present at the festivities. Messrs. Marcellino, Boffa and Sherer furnished the music for the occasion. A good time was anticipated.

The officers of the Episcopal Aid Society are Mrs. A. H. Whitmore, President; Mrs. A. C. Stockton, Vice-President; and Mrs. Bigelow, Secretary. Weekly meetings of this society will be held at the houses of the different members throughout the fall and winter and will afford amusement to the members and aid to the church.

Our readers will remember a squatter's difficulty in the vicinity of Ocate, N. M., a couple of months ago, by which a prominent young lawyer named Martinez, and a squatter named Flynn lost their lives, and several others were injured. There has been considerable feeling and difficulty over the matter in that vicinity ever since, and lately one of the participants of the fracas was found dead, hung to a tree, and supposed to have been lynched. Now comes the news that Santiago Valdez, an aged and respected citizen of Mora county, is charged with the murder of Flynn. Senor Valdez is the father of the young lawyer Martinez, that was killed. He had another son, Malaguis, who was wounded in the affair; but at the time of the murder was himself not in the vicinity, and took no part in it, so far as we could learn. He was brought up for trial at the last term of court at Cimarron, but his case changed to the docket of San Miguel county. He will have a hearing at the special term of court in that county, which will be opened October 10th. From what we learned of the case at the time of the shooting, from parties who were present, we cannot see why Don Santiago should be held for Flynn's murder.—*Trinidad Times*.

Just now, when so much is being said *pro et con* in regard to the prayers offered for the recovery of the President, it occurs to us that there is a wide spread theory in the world that a man becomes more excellent if not better by contact with beauty in every form. Every towering mountain, yawning chasm, storm-tossed ocean or burning city that enters into experience only increases his capacity for sublime emotions and sublime conceptions; and so every lovely flower, star-lit sky, picture, statue, landscape or other form of beauty that enters into experience only increases his capacity for emotions and conceptions of beauty. Would not the same principle apply to prayer? Reverent, grateful and benevolent emotions clothed in pure and chaste language, cannot fail to leave their holy impress upon the soul, and though our prayers may rise no higher than the lips that utter them, they make us the purer and the better for believing the delusion, and occasionally bringing to mind the grandest themes that ever inspired a human poet or strengthened a dying martyr.

Judge Levi Davis, of Alton, Illinois, now in this city, in discussing the possible contingency of the death of the President raised an important legal question which we have not seen noticed in the press. Should Guiteau be put upon trial for murder, it would be necessary, according to the rules of evidence to secure jurors who had not formed or expressed an opinion in the case. In the District of Columbia it would be impossible to find a man of lawful age who had not formed or expressed an opinion either as to the guilt of Guiteau or as to his sanity. An opinion in either case would disqualify a man as a juror. A jury could not be impeached under the strict rule. The Judge says an eminent lawyer some years since in arguing against this rule of law made the supposititious case of shooting the President the basis of his remarks against the rule. The supposed contingency has now arisen and the trial of Guiteau will involve important points of law and discussion of this rule.

In the telegraphic columns this morning will be found the summing up of Prosecuting Attorney Parkhurst in the church trial of Dr. Thomas, at Chicago, in which he says: "There are gray-haired, godly men in this city, there are broken-hearted mothers in this city who are weeping over the ruin of their sons whose downfall in theatre-going, dancing, beer drinking and card playing began with accepting their views from Dr. Thomas." But there are youths in this city rushing down the steep road to ruin at a rattling pace and beer is not the strongest drink they use nor theatres the worst places they visit, and still they have not been inoculated severely with Dr. Thomas' views.

The Santa Fe Presbytery will meet in the Presbyterian church in West Vegas on next Thursday evening at 7 o'clock. The exercises of the session will begin by a sermon by Rev. G. W. Riggie, Moderator. The session will continue several days and will be attended, most likely, by a large number of distinguished ministers—Gospel pioneers of New Mexico, Arizona and Texas. The citizens of Las Vegas are cordially invited to attend.

Col. Woodward, formerly of Las Vegas, has returned from the vicinity of Ft. Wingate where he has been for some time in the interest of the A. & P. R. R. He leaves Monday for a short visit East and upon his return will most likely become a permanent resident of our city; where he can, to use his expression, "have a bed to sleep in and get three square meals a day."

It was reported at the train to-day that five of the Independence train robbers had been captured at Olathe, a station on the K. C., F. & G. R. R., and \$5,000 of the stolen property recovered. Those who were captured "squealed" and it seems that the notorious and ubiquitous James Brothers were not in the gang.

GROCERIES.

Bell & Co., the plaza grocers and bakers, are making elaborate preparations for the fall and winter trade. They have had the experience of the past year, and understand thoroughly the wants of the people of this country in the line of groceries. They have studied the situation and have provided a large and choice stock of groceries especially suited to the market. By judicious advertising they are constantly extending their trade, and do not propose to be behind in any respect. The bakery has been an eminent success, and a decided addition to their establishment and their famous cream bread is becoming the favorite in the households of the city.

A movement is being made by the business men of old town, who are in favor of law and order, to get a marshal. A subscription was circulated to-day which was liberally signed. Old town has become the nesting place of all the thieves and rascals, who hang around the dance halls and make a practice of robbing strangers. This state of affairs has been brought about by the fact that there has been nobody whose business it was to look after the town. May they succeed in getting a good man for the position.—*Albuquerque Journal*.

Several practitioners of the healing art have been arrested at Colorado Springs recently for violation of the statute relating to Doctors. One of those arrested explained that he had prefixed the Dr. to his name to distinguish him from several other men in the town having the same name and initials as himself.

The above was handed us with a request to publish it, and we cheerfully comply.—*Eos*.

Some work has been done recently upon the Henry Clay, the first extension of the "Little Mack." The results go to show that all three of the leads shown upon the "Little Mack," pass directly through the Henry Clay, nor does it appear that they diminish in value. It is probable that the "Clay" is nearly, if not quite, as valuable as the "Mack."

During the President's illness he has been sustained largely by a diet of koumiss. But what is koumiss? many persons ask. It is fermented milk; not the ordinary sour milk known to us, but milk fermented in a peculiar way by the use of leaven, or yeast. The preparation of it is little understood in this country, although the abundance of the very best milk with us and the wholesomeness of this form of the fermented article entitle it to a more general attention and use. Koumiss is a very common drink among the Tartars who draw their material for making it from their abundant herds of cattle, and all we know of it and its wholesome effects we have obtained from them. When properly made it is highly effervescent, more so than champagne, and requires to be kept in strong bottles and handled with care. It is foamy, thicker than unfermented milk and a palatable and most refreshing beverage. It is more easily digested than sweet milk, and for this reason is recommended in cases of weak digestion. It is held in high esteem in Russia, and it is the custom of Russian invalids to go into the Tartar country for the purpose of subsisting on koumiss alone, till they are restored to health.
